Neen partners with leaders in 90-day cycles to create clear accountability plans for implementation to drive results.

A combination of regular phone meetings, targeted resources, and a direct and honest approach, makes her a sought after leadership coach and mentor.

What do clients say

ABOUT WORKING WITH NEEN JAMES

“Neen is an amazing coach and provided me with insight and guidance on how to deliver a Truly Memorable presentation. The results have been fantastic as indicated by the feedback that I receive from my peers. I highly recommend Neen for her expertise and wisdom.”

B. Orloff, Senior Solution Engineer, SAP

“Neen has worked with and coached with various leaders within our company and the results have been incredible! These leaders have made significant changes in how they communicate and lead their teams. Neen has a unique way of providing candid feedback, while showing great compassion. Her partnership is invaluable to our organization.”

K. Reisbeck, Vice President, Comcast Spotlight

“Working with Neen in her Mentoring Program is one of the best investments I have made in my own development. Gaining clarity on my goals, and having a very strong accountability partner was key for me. Her commitment to each client, her personalized approach, and generosity with her network differentiate Neen’s program. She’s a natural connector and genuinely cares about your success. Working with Neen is both fun and productive - the energizer bunny has some serious competition!”

K. Roy, Global Clinical Medical Education, Cephalon

“If you are a business professional of any kind looking to improve interpersonal skills and dramatically increase your productivity, you need to work with Neen. Her insight is vast and invaluable and her energy is infectious!”

S. Kent, Senior Vice President, First Service Financial

“Neen provided our team great insight on productivity and time management. The session she facilitated for our staff on how to be more productive and more effective was excellent. Her ability to outline practical examples of how to better manage workload, be a better teammate/co-worker and better leverage your own individual work style is second to none. All this and she is an absolute joy to work with!”

T. Spiczenski, Chief Products Officer, Credit Union National Association

“Neen in one word: awesome. Since starting to work with Neen last year as my coach, she has helped me develop into the Vice President role. She has guided me to bring out my strategic and more than usual detail-oriented self and has helped me with the idea to lessen the reigns of control to get more done. Working with her has definitely taken me to the next level. Recently First Federal brought Neen in as a speaker for our Annual Team Member Dinner and Awards banquet. Fellow Team Members are still talking about her presentation and looking at ways to make each interaction meaningful, would highly recommend.”

J. Sweeney, Vice President Marketing, First Federal Bucks County

“I can’t say enough great things about the incomparable Neen James. She is positive, relatable, well informed, insightful & results driven. The SVP of my group requests her by name and it’s with good reason! Each time she’s involved with our team, the feedback gets better and better.”

K. Smith, Executive Assistant, Viacom Media Networks
